TRAVEL TALES

Tourism & Heritage Website

1. Introduction

Travel Tales is a tourism and heritage website designed to introduce visitors to the beauty, history, traditions and food of India. The webpage brings travel information together in one place through clearly arranged sections, attractive destination cards, festival descriptions, food highlights and a photo gallery.

Key Features

- **Navigation bar:** links to Home, Destinations, Heritage, Festivals, Cuisine and Gallery.
- **Hero section:** a welcome message with an Explore Destinations button.
- **Regional guide:** quick labels for six regions of India.
- **Destination and heritage cards:** photographs, labels, titles and short descriptions.
- **Festival and cuisine sections:** highlights Diwali, Holi, Onam, biryani, dosa and samosa.
- **Travel gallery and tips:** visual inspiration and practical travel advice.
- **Responsive layout:** CSS media queries adapt the grid for tablet and mobile screens.

2. Applications

- **Tourism awareness:** introduces visitors to destinations and cultural attractions across India.
- **Educational projects:** suitable for demonstrating HTML structure, CSS styling and responsive design.
- **Travel planning inspiration:** helps users discover places, heritage sites, festivals and regional dishes.
- **Local culture promotion:** presents traditions and cuisine in a simple, visually engaging format.
- **Portfolio demonstration:** showcases common front-end techniques such as CSS Grid, Flexbox, hover effects and anchor navigation.

Technologies Used

HTML5 defines the content and page sections. **CSS3** controls the dark-blue theme, layout, spacing, cards, hover effects and responsive breakpoints. The buttons use small inline JavaScript actions to scroll to the destinations section and show a confirmation alert. The destination and gallery photographs are loaded from Unsplash image URLs.

3. Conclusion

Travel Tales combines information and visual design to create an easy-to-follow tourism website. Its organised sections make it simple to explore Indian destinations, heritage, festivals and cuisine. The project demonstrates how HTML, CSS and small JavaScript interactions can be combined to create a responsive and attractive webpage. The design can be expanded in the future with search, maps, booking links and more regional content.

Project: Travel Tales • Tourism & Heritage Website • 2026

4. Complete HTML & CSS Source Code

The following pages contain the supplied webpage source in its original order.

        <h2>Travel Tips</h2>
        <p>Keep these simple tips in mind before starting your journey.</p>
    </div>

    <ul>
        <li>Plan your trip and check the weather before travelling.</li>
        <li>Carry identification, necessary medicines and drinking water.</li>
        <li>Respect local traditions, customs and religious places.</li>
        <li>Keep historical monuments and natural surroundings clean.</li>
        <li>Check entry fees, opening hours and transport options in advance.</li>
        <li>Try local food and support local businesses.</li>
    </ul>
